Our Mission

To provide exceptional, academically informed psychiatric care, that is accessible to patients, affordable through insurance, compassionate and tailored to each patient's individual needs. To remain 100% provider owned and led, without the outside influence of private equity or external investors, ensuring that every decision that we make, is driven by clinical expertise, rather than corporate profits. To cultivate an environment where all providers have an interest in the company's success, fostering a collaborative culture, where providers can work as a team, with one shared goal – to deliver the highest quality of patient care available.
